Honey dreams

A:

Kiss the sky goodbye my
I'm leaving earth
I'm leaving this world

B1:

Going to the underworld
Flying out in space
Into afroditish world
Were I'm in my greatest biggest ace

B2:

Into the great big stars
Where angle honeys
Search real nice men in parts
Where they haven't found wonders before

C1:

I really wanna make her happy
So real lucky for eternally
I will do anything for her
Everything should be so wonderful

C2:

A million stars will shine for us
The birds and butterflies will sing for us
The sky will be so bright and blue
The moment is just for me and you

B3:

We are so good together
I will be so good
to you for the rest of my life
And I know of course so will you too

B4:

I'm waiting for the moment
Girl your sweet come on
Come here to me I need you
Let's start a real good life together
